Index of Issues: July, pp 1-152; August, pp 153-312; September, pp 313-480; October, pp 481-648; November, pp 649-808; December, pp 809-984.

ANATOMIC PATHOLOGY

Case Report

Embolization of Hydrophilic Catheter Coating to the Lungs: Report of a Case Mimicking Granulomatous Vasculitis

Robert W. Allan, Hassan Alnuaimat, William D. Edwards, and Henry D. Tazelaar, 794

Original Articles

Absence of the *BRAF* Mutation in HBME1+ and CK19+ Atypical Cell Clusters in Hashimoto Thyroiditis: Supportive Evidence Against Preneoplastic Change

Michel R. Nasr, Sanjay Mukhopadhyay, Shengle Zhang, and Anna-Luise A. Katzenstein, 906

Accuracy of Urine Cytology and the Significance of an Atypical Category

Fadi Brimo, Robin T. Vollmer, Bruce Case, Armen Aprikian, Wassim Kassouf, and Manon Auger, 785

Acute Fungal Sinusitis: Natural History and the Role of Frozen Section

Jerome B. Taxy, Shady El-Zayaty, and Alexander Langerman, 86

The Assessment of Specimens Procured by Endoscopic

Ampullectomy

Andrew M. Bellizzi, Michel Kahaleh, and Edward B. Stelow, 506

Automated Cellular Imaging System III for Assessing HER2 Status in Breast Cancer Specimens: Development of a Standardized Scoring Method That Correlates With FISH

Douglas M. Minot, Benjamin R. Kipp, Renee M. Root, Reid G. Meyer, Carol A. Reynolds, Aziza Nassar, Michael R. Henry, and Amy C. Clayton, 133

The Becton Dickinson FocalPoint GS Imaging System: Clinical Trials Demonstrate Significantly Improved Sensitivity for the Detection of Important Cervical Lesions

David C. Wilbur, W. Stephen Black-Schaffer, Ronald D. Luff, Kurian P. Abraham, Cynthia Kemper, James T. Molina, and William D. Tench, 767

CDX-2 Expression Is a Common Event in Primary Intestinal-type Endocervical Adenocarcinoma

Reda S. Saad, Nadia Ismail, Valérie Dubé, Sharon Nofech Mozes, and Mahmoud A. Khalifa, 531

Chromogenic In Situ Hybridization: A Multicenter Study Comparing Silver In Situ Hybridization With FISH

J.M.S. Bartlett, Fiona M. Campbell, Merdol Ibrahim, Peter Wencyk, Ian Ellis, Elaine Kay, Yvonne Connolly, Anthony O'Grady, Silvana Di Palma, Jane Starczynski, John M. Morgan, Bharat Jasani, and Keith Miller, 514

Clonal Relationship Between Closely Approximated Low-Grade Ductal and Lobular Lesions in the Breast: A Molecular Study of 10 Cases

Patrick L. Wagner, Naoki Kitabayashi, Yao-Tseng Chen, and Sandra J. Shin, 871

A Comparison of Estrogen Receptor SP1 and 1D5 Monoclonal Antibodies in Routine Clinical Use Reveals Similar Staining Results

Jane E. Brock, Jason L. Hornick, Andrea L. Richardson, Deborah A. Dillon, and Susan C. Lester, 396

Composite Pheochromocytoma: A Clinicopathologic and Molecular Comparison With Ordinary Pheochromocytoma and Neuroblastoma

Jessica M. Comstock, Carlynn Willmore-Payne, Joseph A. Holden, and Cheryl M. Coffin, 69

Decorin Is Significantly Overexpressed in Nephrogenic Systemic Fibrosis

Thilo Gambichler, Alexander Kreuter, Marina Skrygan, Björn Burkert, Peter Altmeyer, and Gisela Schieren, 139

Diabetic Microangiopathy in the Liver: An Autopsy Study of Incidence and Association With Other Diabetic Complications

Rachel M. Hudacko, Justin P. Sciancalepore, and Billie S. Fyfe, 494

Differentiation of *Fusarium* From *Aspergillus* Species by Colorimetric In Situ Hybridization in Formalin-Fixed, Paraffin-Embedded Tissue Sections Using Dual Fluorogenic-Labeled LNA Probes

Kathleen T. Montone, 866

E-Cadherin/ β -Catenin and CD10: A Limited Immunohistochemical Panel to Distinguish Pancreatic Endocrine Neoplasm From Solid Pseudopapillary Neoplasm of the Pancreas on Endoscopic Ultrasound-Guided Fine-Needle Aspirates of the Pancreas

Holly Burford, Zubair Baloch, Xiuli Liu, Darshana Jhala, Gene P. Siegal, and Nirag Jhala, 831

Effect of Human Papillomavirus on Cell Cycle-Related Proteins p16, Ki-67, Cyclin D1, p53, and ProEx C in Precursor Lesions of Cervical Carcinoma: A Tissue Microarray Study

Pablo Conesa-Zamora, Asunción Doménech-Peris, Francisco J. Orantes-Casado, Sebastián Ortiz-Reina, Laura Sahuquillo Frias, Jesús Acosta-Ortega, José García-Solano, and Miguel Pérez-Guillermo, 378

Evaluation of Cell Surface Expression of Phosphatidylserine in Ovarian Carcinoma Effusions Using the Annexin-V/7-AAD Assay: Clinical Relevance and Comparison With Other Apoptosis Parameters

Hiep Phuc Dong, Arild Holth, Lilach Kleinberg, Marit Gunhild Ruud, Mari Bunkholt Elstrand, Claes G. Tropé, Ben Davidson, and Björn Risberg, 756

- Expression of Hepatocyte Antigen in Small Intestinal Epithelium and Adenocarcinoma
Mylinh T. Mac, Fai Chung, Fan Lin, Pei Hui, Bonnie L. Balzer, and Hanlin L. Wang, 80
- Fine-Needle Aspiration Biopsy of Chondromyxoid Fibroma: An Investigation of Four Cases
Simon Bergman, Christopher R. Madden, and Kim R. Geisinger, 40
- FU-MK-1 Expression in Human Gallbladder Carcinoma: An Antigenic Prediction Marker for a Better Postsurgical Prognosis
Takeaki Ikeda, Yoshifuku Nakayama, Yoshihiro Hamada, Morishige Takeshita, Hiroshi Iwasaki, Kensei Maeshiro, Yuichi Yamashita, Masahide Kuroki, and Seiyō Ikeda, 111
- A Histologically Defined Subset of High-Grade Dysplasia in Barrett Mucosa Is Predictive of Associated Carcinoma
Weijian Zhu, Henry D. Appelman, Joel K. Greenson, Stephen R. Ramsburgh, Mark B. Orringer, Andrew C. Chang, and Barbara J. McKenna, 94
- HPV Vaccine Protein L1 Predicts Disease Outcome of High-Risk HPV+ Early Squamous Dysplastic Lesions
Henrik Griesser, Heinz Sander, Cindy Walczak, and Ralf A. Hilfrich, 840
- In Situ Evidence of *KRAS* Amplification and Association With Increased p21 Levels in Non-Small Cell Lung Carcinoma
Patrick L. Wagner, Sven Perner, David S. Rickman, Christopher J. LaFargue, Naoki Kitabayashi, Stephen F. Johnstone, Barbara A. Weir, Matthew Meyerson, Nasser K. Altorki, and Mark A. Rubin, 500
- Justification of the Change From 10% to 30% for the Immunohistochemical HER2 Scoring Criterion in Breast Cancer
Yan-Hui Liu, Fang-Ping Xu, Jian-Yu Rao, Heng-Guo Zhuang, Xin-Lan Luo, Li Li, Dong-Lan Luo, Fen Zhang, and Jie Xu, 74
- Loss of Carbamoyl Phosphate Synthetase I in Small-Intestinal Adenocarcinoma
Diana M. Cardona, Xiaokui Zhang, and Chen Liu, 877
- p16^{INK4a} Expression Analysis as an Ancillary Tool for Cytologic Diagnosis of Urothelial Carcinoma
Kumiko Nakazawa, Shin-ichi Murata, Tsutomu Yuminamochi, Yoshio Ishii, Shikine Ohno, Tadao Nakazawa, Tetsuo Kondo, and Ryohei Katoh, 776
- Performance of Chromogenic In Situ Hybridization on Testing HER2 Status in Breast Carcinomas With Chromosome 17 Polysomy and Equivocal (2+) HercepTest Results: A Study of Two Institutions Using the Conventional and New ASCO/CAP Scoring Criteria
Yun Gong, William Sweet, Yi-Jing Duh, Larry Greenfield, Emily Tarco, Smrita Trivedi, W. Fraser Symmans, Jorma Isola, and Nour Sneige, 228
- Primary Lung Cancer vs Metastatic Breast Cancer: A Probabilistic Approach
Robin T. Vollmer, 391
- Prognostic Significance of CXCL12 Expression in Patients With Colorectal Carcinoma
Yuri Akishima-Fukasawa, Yukihiro Nakanishi, Yoshinori Ino, Yoshihiro Moriya, Yae Kanai, and Setsuo Hirohashi, 202
- Pseudolipomatosis Affects Specimens From Endometrial Biopsies
Suvarna A. Deshmukh-Rane and Mark Li-cheng Wu, 374
- Pseudosarcomatous Fasciitis and Myositis: Diagnosis by Fine-Needle Aspiration Cytology
Nim Lai Wong and Fang Di, 857
- Repeated Molecular Testing in Gliomas: A Retrospective Study of 53 Cases
Dipti Mahajan and Richard A. Prayson, 118
- The Reproducibility of CIN Diagnoses Among Different Pathologists: Data From Histology Reviews From a Multicenter Randomized Study
Paolo Dalla Palma, Paolo Giorgi Rossi, Guido Collina, Anna Maria Buccoliero, Bruno Ghiringhello, Eliana Gilioli, Gian Libero Onnis, Daniela Aldovini, Giuseppe Galanti, GianPiero Casadei, Mirella Aldi, Vito V. Gomes, Pamela Giubilato, Guglielmo Ronco, and the NTCC Pathology Group, 125
- S100A1 Expression in Ovarian and Endometrial Endometrioid Carcinomas Is a Prognostic Indicator of Relapse-Free Survival

 - metastatic, primary lung cancer vs. a probabilistic approach, 391
 - tissue microarray for routine analysis of breast biomarkers in the clinical laboratory, 899

C

- E-Cadherin, in limited immunohistochemical panel to distinguish pancreatic endocrine neoplasm from solid pseudopapillary neoplasm of the pancreas on endoscopic ultrasound-guided fine-needle aspirates of the pancreas, 831
- Carbamoyl phosphate synthetase I, loss of, in small-intestinal adenocarcinoma, 877
- Carcinoma
- of breast
 - with chromosome 17 polysomy and equivocal (2+) HercepTest results, performance of chromogenic in situ hybridization on testing HER2 status in, a study of two institutions using the conventional and new ASCO/CAP scoring criteria, 228
 - clonal relationship between closely approximated low-grade ductal and lobular lesions, a molecular study of 10 cases, 871
 - comparison of estrogen receptor SP1 and ID5 monoclonal antibodies in routine clinical use reveals similar staining results, 396
 - cervical, human papillomavirus's effect on cell cycle-related proteins p16, Ki-67, cyclin D1, p53, and ProEx C in precursor lesions of, a tissue microarray study, 378
 - colorectal, prognostic significance of CXCL12 expression in patients with, 202
 - of esophagus, histologically defined subset of high-grade dysplasia in Barrett mucosa is predictive of associated, 7, 94
 - of gallbladder, FU-MK-1 expression in, an antigenic prediction marker for a better postsurgical prognosis, 111
 - of lung, in situ evidence of *KRAS* amplification and association with increased p21 levels in non-small cell, 500
 - ovarian
 - phosphatidylserine cell surface expression in effusions of,

- evaluation using the annexin-V/7-AAD assay, clinical relevance and comparison with other apoptosis parameters, 756
- S100A1 expression is a prognostic indicator of relapse-free survival, 846
- of prostate, usefulness of cytokeratin 5/6 and AMACR applied as double sequential immunostains for diagnostic assessment of problematic specimens, 211
- thyroid, Hashimoto thyroiditis associated with, 906
- urothelial, p16^{INK4a} expression analysis as ancillary tool for cytologic diagnosis of, 776
- β -Catenin, in limited immunohistochemical panel to distinguish pancreatic endocrine neoplasm from solid pseudopapillary neoplasm of the pancreas on endoscopic ultrasound-guided fine-needle aspirates of the pancreas, 831
- Catheters, central venous, embolization of hydrophilic coating to the lungs, report of a case mimicking granulomatous vasculitis, 794
- CD5, significant expression on normal stage 3 hematogones and mature B lymphocytes in bone marrow, 733
- CD8, aberrant expression in B-cell non-Hodgkin lymphoma, a multicenter study of 951 bone marrow samples with lymphomatous infiltration, 186
- CD10
 - as immunohistochemical marker to confirm the presence of vas deferens in vasectomy specimens, 893
 - in limited immunohistochemical panel to distinguish pancreatic endocrine neoplasm from solid pseudopapillary neoplasm of the pancreas on endoscopic ultrasound-guided fine-needle aspirates of the pancreas, 831
- CD14, in FLAER-based WBC assay in the primary screening of paroxysmal nocturnal hemoglobinuria clones, 564
- CD25
 - expression in mastocytosis, 438
 - human T-cell lymphotropic virus in CD25+ anaplastic large cell lymphoma in children, analysis of, 28
- CD30, immunoreactivity, and T-cell receptor gene rearrangement in traumatic ulcerative granuloma with stromal eosinophilia of the oral cavity, 722
- CD33, in FLAER-based WBC assay in the primary screening of paroxysmal nocturnal hemoglobinuria clones, 564
- CD34
 - distinct expression patterns of CD123 and, on normal bone marrow B-cell precursors ("hematogones") and B lymphoblastic leukemia blasts, 573
 - in myeloid leukemia cutis, an updated approach to the diagnosis of, 101
- CD43, in myeloid leukemia cutis, an updated approach to the diagnosis of, 101
- CD45, in FLAER-based WBC assay in the primary screening of paroxysmal nocturnal hemoglobinuria clones, 564
- CD56
 - immunohistochemical studies in follow-up of plasma cell myeloma, utility of, 60
 - in myeloid leukemia cutis, an updated approach to the diagnosis of, 101
- CD68, in myeloid leukemia cutis, an updated approach to the diagnosis of, 101
- CD81, aberrant underexpression in precursor B-cell acute lymphoblastic leukemia, utility in detection of minimal residual disease by flow cytometry, 692
- CD117 (KIT)
 - expression in mastocytosis, 438
 - in myeloid leukemia cutis, an updated approach to the diagnosis of, 101
- CD123, distinct expression patterns of CD34 and, on normal bone marrow B-cell precursors ("hematogones") and B lymphoblastic leukemia blasts, 573
- CD163, in myeloid leukemia cutis, an updated approach to the diagnosis of, 101
- CDX-2, expression as common event in primary intestinal-type endocervical adenocarcinoma, 531
- Cell cycle proteins, human papillomavirus's effect on p16, Ki-67, cyclin D1, p53, and ProEx C in precursor lesions of cervical carcinoma, a tissue microarray study, 378
- Cell surface, phosphatidylserine expression in ovarian carcinoma effusions, evaluation using the annexin-V/7-AAD assay, clinical relevance and comparison with other apoptosis parameters, 756
- Cerebrospinal fluid, relative quantity of herpes simplex virus DNA in, in adult cases of encephalitis and meningitis, 687
- Certification, influence of credentials of clinical laboratory professionals on proficiency testing performance, 550
- Cervical cancer
 - Becton Dickinson Focalpoint GS Imaging System, clinical trials demonstrate significantly improved sensitivity for the detection of important cervical lesions, 767
 - CDX-2 expression is a common event in primary intestinal-type, 531
 - human papillomavirus's effect on cell cycle-related proteins p16, Ki-67, cyclin D1, p53, and ProEx C in precursor lesions of, a tissue microarray study, 378
 - up-regulation of plasminogen activator inhibitor-2 is associated with high-risk HPV and grade of cervical lesion at baseline but does not predict outcomes of high-risk HPV infections or incident cervical intraepithelial neoplasia, 883
- Cervical cytology
 - Becton Dickinson Focalpoint GS Imaging System, clinical trials demonstrate significantly improved sensitivity for the detection of important cervical lesions, 767
 - HPV vaccine protein L1 predicts disease outcome of high-risk HPV+ early squamous dysplastic lesions, 840
- Cervical intraepithelial neoplasia
 - HPV vaccine protein L1 predicts disease outcome of high-risk HPV+ early squamous dysplastic lesions, 840
 - reproducibility of diagnoses among different pathologists, data from histology reviews from a multicenter randomized study, 125
 - up-regulation of plasminogen activator inhibitor-2 is associated with high-risk HPV and grade of cervical lesion at baseline but does not predict outcomes of high-risk HPV infections or incident, 883
- Cervical lymph node dissections, central, lymphocyte-depleted thymic remnants, a potential diagnostic pitfall in the evaluation of, 707

- Checklists, College of American Pathologists, usefulness of synoptic data tool for reporting of head and neck neoplasms based on, 521
- Chemotherapy
 postchemotherapy histiocyte-rich pseudotumor involving the spleen, 342
 therapy-related myeloid neoplasms, 410
- Children. *See also* Neonates
 human T-cell lymphotropic virus in CD25+ anaplastic large cell lymphoma in, analysis of, 28

- clinical performance of *JAK2* V617F mutation detection assays in a molecular diagnostics laboratory, evaluation of screening and quantitation methods, 713
 - repeated molecular testing in gliomas, a retrospective study of 53 cases, 118
- Monoclonal antibodies, comparison of estrogen receptor SP1 and 1D5 in routine clinical use reveals similar staining results, 396
- Monocytoid B cells, nodal marginal zone B-cell lymphoma, immunohistochemical patterns in, a study of 51 cases, 39
- Mouth mucosa, traumatic ulcerative granuloma with stromal eosinophilia of, T-cell receptor gene rearrangement and CD30 immunoreactivity in, 722
- Mucosa, oral. *See* Mouth mucosa
- MYC/IgH* gene rearrangement, plasmablastic lymphomas with, report of three cases and review of the literature, 597
- Mycobacterium tuberculosis*, is the QuantiFERON-TB blood assay a good replacement for the tuberculin skin test in tuberculosis screening?, a pilot study at Berkshire Medical Center, 678
- Myelodysplasia, myelodysplastic/myeloproliferative neoplasms, 281
- Myeloid cells. *See also* Myeloma
- myelodysplastic/myeloproliferative neoplasms, 281
 - in myeloid leukemia cutis, 101
 - in myeloid sarcoma, 426
 - in Philadelphia chromosome-negative chronic myeloproliferative disease, 261
- Myeloma, plasma cell (multiple)
- c-Maf transcription factor in normal and neoplastic hematolymphoid tissue and its relevance in plasma cell neoplasia, 349
 - flow cytometric immunophenotyping and minimal residual disease analysis in, 728
 - utility of CD56 immunohistochemical studies in follow-up of, 60
- Myeloperoxidase
- acute lymphoblastic leukemia with Burkitt-like morphologic features and high levels of, 182
 - in myeloid leukemia cutis, an updated approach to the diagnosis of, 101
- Myeloproliferative disorders, 290
- clinical performance of *JAK2* V617F mutation detection assays in a molecular diagnostics laboratory, evaluation of screening and quantitation methods, 713
 - myelodysplastic/myeloproliferative neoplasms, 281
 - Philadelphia chromosome-negative chronic, 261
 - therapy-related myeloid neoplasms, 410
- Myositis, proliferative, diagnosis by fine-needle aspiration cytology, 857

N

- Necrosis, and postchemotherapy histiocyte-rich pseudotumor involving the spleen, 342
- Needle biopsy. *See* Fine-needle aspiration biopsy
- Neonates, implementing and validating transcutaneous bilirubinometry for, 555
- Neuroblastoma, clinicopathologic and molecular comparison with ordinary pheochromocytoma, composite pheochromocytoma, and, 69
- New England Journal of Medicine* Web site, 825
- Nosocomial infections, methicillin-resistant *Staphylococcus aureus*, epidemiology and susceptibilities of, in Northeastern Ohio, 668

O

- Oligodendroglioma, and repeated molecular testing in gliomas, 118
- Oligonucleotide probes, in Agilent 244K array-based comparative genomic hybridization platform, 349

Ovarian carcinoma

- phosphatidylserine cell surface expression in effusions of, evaluation using the annexin-V/7-AAD assay, clinical relevance and comparison with other apoptosis parameters, 756
- S100A1 expression is a prognostic indicator of relapse-free survival, 846

P

p16 protein

- expression in primary intestinal-type endocervical adenocarcinoma, 531

- human papillomavirus's effect on cell cycle-related proteins Ki-67, cyclin D1, p53, and ProEx C, and, in precursor lesions of cervical carcinoma, a tissue microarray study, 378

p16^{INK4a} protein, expression analysis as ancillary tool for cytologic diagnosis of urothelial carcinoma, 776

p21 protein, in situ evidence of *KRAS* amplification and association with increased levels of, in non-small cell lung carcinoma, 500

p53 protein, human papillomavirus's effect on cell cycle-related proteins p16, Ki-67, cyclin D1, and ProEx C, and, in precursor lesions of cervical carcinoma, a tissue microarray study, 378

p63 protein, primary lung cancer vs metastatic breast cancer, a probabilistic approach, 391

Pancreas

- ampulla of Vater, assessment of specimens procured by endoscopic ampullectomy, 506
- endocrine neoplasms of, E-cadherin/ β -catenin and CD10 in limited immunohistochemical panel to distinguish from solid pseudopapillary neoplasm of the pancreas on endoscopic ultrasound-guided fine-needle aspirates, 831

Pankeratin, as immunohistochemical marker to confirm the presence of vas deferens in vasectomy specimens, 893

Papillectomy, endoscopic, assessment of specimens procured by endoscopic ampullectomy, 506

Pathology Education Instructional Resource (University of Alabama), 826

Patient satisfaction, applying Lean/Toyota production system principles to improve phlebotomy workflow and, 914

Pheochromocytoma, composite, clinicopathologic and molecular comparison with ordinary pheochromocytoma and neuroblastoma, 69

Philadelphia (Ph) chromosome in chronic myelogenous leukemia, 250

- Philadelphia chromosome-negative chronic myeloproliferative disease, 261

Phlebotomy, Lean/Toyota Production System principles to improve patient satisfaction and workflow, 914

Phosphatidylserine, cell surface expression in ovarian carcinoma effusions, evaluation using the annexin-V/7-AAD assay, clinical relevance and comparison with other apoptosis parameters, 756

Plasma. *See also* Plasma cells

- fluorogenic thrombin-generation assays, optimization of, 169

Plasma cells

iron-laden, in copper deficiency diagnosis, 191

myeloma

- c-Maf transcription factor in normal and neoplastic hemolymphoid tissue and its relevance in plasma cell neoplasia, 349

- utility of CD56 immunohistochemical studies in follow-up of, 60

Plasmacytoma, extramedullary plasmacytoma-like posttransplantation lymphoproliferative disorders, clinical and pathologic features, 581

Plasminogen activator inhibitor-1, in metabolic syndrome diagnosis, 161

Plasminogen activator inhibitor-2 (protease inhibitor serpin-B2), up-regulation is associated with high-risk HPV and grade of cervical lesion at baseline but does not predict outcomes of high-risk HPV infections or incident CIN, 883

Pneumocystosis, opportunistic invasive fungal infections in patients with AIDS, trends in the postmortem diagnosis of, a retrospective study of 1,630 autopsies performed between 1984 and 2002, 221

Point-of-care testing

- for exertional dysnatremia in collapsed marathon runners, as guide to appropriate therapy, 336

- implementation of a rapid whole blood D-dimer test in the emergency department of an urban academic medical center, impact on ED length of stay and ancillary test utilization, 326

- three whole blood creatinine methods for estimation of glomerular filtration rate before radiographic contrast administration, comparison of, 920

Polymerase chain reaction

- real-time reverse transcription, and decorin overexpression in nephrogenic systemic fibrosis, 139

- semiquantitative, cerebrospinal fluid herpes simplex virus DNA in adult cases of encephalitis and meningitis, relative quantity of, 687

- T-cell receptor gene rearrangement and CD30 immunoreactivity in traumatic ulcerative granuloma with stromal eosinophilia of the oral cavity, 722

Polyposis, familial adenomatous, assessment of specimens procured by endoscopic ampullectomy, 506

Precursor lesions

- absence of the *BRAF* mutation in HBME1+ and CK19+ atypical cell clusters in Hashimoto thyroiditis, supportive evidence against preneoplastic change, 906

- and clonal relationship between closely approximated low-grade ductal and lobular lesions in the breast, a molecular study of 10 cases, 871

Probability, primary lung cancer vs metastatic breast cancer, 391

ProEx C, human papillomavirus's effect on cell cycle-related proteins p16, Ki-67, cyclin D1, p53, and, in precursor lesions of cervical carcinoma, a tissue microarray study, 378

Proficiency testing, influence of credentials of clinical laboratory professionals on performance in, 550

Prognostic markers

- CXCL12 expression in patients with colorectal carcinoma, 202

- FU-MK-1 expression in human gallbladder carcinoma, an antigenic prediction marker for a better postsurgical prognosis, 111

HPV vaccine protein L1 predicts disease outcome of high-risk HPV+ early squamous dysplastic lesions, 840
 newer antiphospholipid antibodies predict adverse outcomes in patients with acute coronary syndrome, 613
 S100A1 expression in ovarian and endometrial endometrioid carcinomas is an indicator of relapse-free survival, 846
 up-regulation of plasminogen activator inhibitor-2 is associated with high-risk HPV and grade of cervical lesion at baseline but does not predict outcomes of high-risk HPV infections or incident cervical intraepithelial neoplasia, 883
 Prostate carcinoma, usefulness of cytokeratin 5/6 and AMACR applied as double sequential immunostains for diagnostic assessment of problematic specimens, 211
 Protein tyrosine kinase inhibitor, in chronic myelogenous leukemia therapy, 250
 Proteoglycans, in nephrogenic systemic fibrosis pathogenesis, 139
 Pseudolipomatosis, affects specimens from endometrial biopsies, 374
 Pseudopapillary tumor, solid, of pancreas, E-cadherin/ β -catenin and CD10 in limited immunohistochemical panel to distinguish pancreatic endocrine neoplasm from, on endoscopic ultrasound-guided fine-needle aspirates, 831
 Pseudosarcomatous lesions, fasciitis and myositis, diagnosis by fine-needle aspiration cytology, 857
 Pseudotumors, postchemotherapy histiocyte-rich, involving the spleen, 342

Q

Quality assurance
 Lean/Toyota Production System principles to improve phlebotomy patient satisfaction and workflow, application of, 914
 should pathologists send all or only selected slides for patient-requested interlaboratory second opinion?, 763
 QuantiFERON-TB Gold In-Tube, is it a good replacement for the tuberculin skin test in tuberculosis screening?, a pilot study at Berkshire Medical Center, 678

R

RabMab SP1, comparison of estrogen receptor SP1 and 1D5 monoclonal antibodies in routine clinical use reveals similar staining results, 396
 Radiation therapy, therapy-related myeloid neoplasms, 410
 Radiographic contrast media, comparison of three whole blood creatinine methods for estimation of glomerular filtration rate before administration of, 920
 Reed-Sternberg cells, in Hodgkin lymphoma, aberrant expression of cyclin A correlates with morphogenesis of, 50
 Reporting
 Bethesda System for Reporting Thyroid Cytopathology, 655, 658
 of Gram stain results from blood cultures and selection of antimicrobial agents, 5, 18
 linking Web-based supplemental interpretive information to laboratory test reports, pilot study of, 818

of surgically resected thymic epithelial tumors, recommendations for, 10
 synoptic data tool for head and neck neoplasms based on the College of American Pathologists cancer checklists, usefulness of, 521
 Residency programs, in pathology informatics, a virtual rotation solution, 404
 Ring sideroblasts, reactive anemia with, 290
 RNA, ribosomal, in differentiation of *Fusarium* from *Aspergillus* species by colorimetric in situ hybridization in formalin-fixed, paraffin-embedded tissue sections using dual fluorogenic-labeled LNA probes, 866
 Running. *See* Marathon running

S

S100A1, expression in ovarian and endometrial endometrioid carcinomas is a prognostic indicator of relapse-free survival, 846
 Sarcoma
 interdigitating dendritic cell, transformation of chronic lymphocytic leukemia/small lymphocytic lymphoma to, evidence for transdifferentiation of the lymphoma clone, 928
 myeloid
 extramedullary manifestation of myeloid disorder, 426
 an updated approach to the diagnosis of myeloid leukemia cutis, 101
 Screening
 for cervical lesions
 Becton Dickinson Focalpoint GS Imaging System, clinical trials demonstrate significantly improved sensitivity for the detection of, 767
 HPV vaccine protein L1 predicts disease outcome of high-risk HPV+ early squamous dysplastic lesions, 840
 clinical performance of *JAK2* V617F mutation detection assays in a molecular diagnostics laboratory, evaluation of screening and quantitation methods, 713
 for paroxysmal nocturnal hemoglobinuria clones, use of a FLAER-based WBC assay in, 564
 for tuberculosis, is the QuantiFERON-TB blood assay a good replacement for the tuberculin skin test?, a pilot study at Berkshire Medical Center, 678
 Second opinion, should pathologists send all or only selected slides for patient-requested interlaboratory ?, 763
 Sinusitis, acute fungal, natural history and the role of frozen section in, 86
 Small intestine, epithelium and adenocarcinoma, expression of hepatocyte antigen in, 80
 Snare resection, endoscopic, assessment of specimens procured by endoscopic ampullectomy, 506
 Society for Hematopathology, 248
 Specimens
 should pathologists send all or only selected slides for patient-requested interlaboratory second opinion?, 763
 strict adherence to a blood bank labeling policy by all clinical laboratories significantly reduces the incidence of "wrong blood in tube," 164

Spleen, postchemotherapy histiocyte-rich pseudotumor involving, 342

Squamous intraepithelial lesion

HPV vaccine protein L1 predicts disease outcome of high-risk HPV+ early squamous dysplastic lesions, 840

human papillomavirus's effect on cell cycle-related proteins p16, Ki-67, cyclin D1, p53, and ProEx C in precursor lesions of cervical carcinoma, a tissue microarray study, 378

Standardization, automated Cellular Imaging System III for assessing HER2 status in breast cancer specimens, development of a scoring method that correlates with FISH, 133

Staphylococcus aureus, methicillin-resistant, epidemiology and susceptibilities of, in Northeastern Ohio, 668

Synoptic reporting, for head and neck neoplasms based on the College of American Pathologists cancer checklists, usefulness of, 521

T

T-cell receptor gene, rearrangement and CD30 immunoreactivity in traumatic ulcerative granuloma with stromal eosinophilia of the oral cavity, 722

T cells

high expression of the inhibitory receptor BTLA in T-follicular helper cells and in B-cell small lymphocytic lymphoma/chronic lymphocytic leukemia, 589

human T-cell lymphotropic virus in CD25+ anaplastic large cell lymphoma in children, analysis of, 28

Test utilization, ancillary, implementation of a rapid whole blood D-dimer test in the emergency department of an urban academic medical center, impact on ED length of stay and, 326

Thrombin-generation assays, plasma fluorogenic, optimization of, 169

Thromboembolism, venous, implementation of a rapid whole blood D-dimer test in the emergency department of an urban academic medical center, impact on ED length of stay and ancillary test utilization, 326

Thymoma, surgically resected thymic epithelial tumors, recommendations for the reporting of, 10

Thymus

lymphocyte-depleted thymic remnants, a potential diagnostic pitfall in the evaluation of central neck dissections, 707

surgically resected epithelial tumors, recommendations for the reporting of, 10

Thyroid gland, carcinoma of, Hashimoto thyroiditis associated with, 906

Thyroiditis, Hashimoto, absence of the *BRAF* mutation in HBME1+ and CK19+ atypical cell clusters in, supportive evidence against preneoplastic change, 906

Thyroid nodule, and Bethesda System for Reporting Thyroid Cytopathology, 655, 658

Thyroid transcription factor-1, primary lung cancer vs metastatic breast cancer, a probabilistic approach, 391

Tissue microarrays

c-Maf transcription factor in normal and neoplastic hematolymphoid tissue and its relevance in plasma cell neoplasia, characterization of, 349

human papillomavirus's effect on cell cycle-related proteins p16, Ki-67, cyclin D1, p53, and ProEx C in precursor lesions of cervical carcinoma, 378

for routine analysis of breast biomarkers in the clinical laboratory, 899

Topoisomerase II inhibitors, and therapy-related myeloid neoplasms, 410

Toyota Production System, and Lean principles to improve phlebotomy patient satisfaction and workflow, application of, 914

Transforming growth factor β , overexpression in nephrogenic systemic fibrosis, 139

Transplantation. *See also* Hematopoietic stem cell transplantation

extramedullary plasmacytoma-like posttransplantation lymphoproliferative disorders, clinical and pathologic features, 581
